

EVEN COLOUR TONE FOR
A HARMONIOUS FINISH

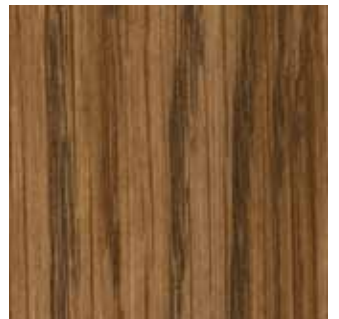

3040 White on Spruce

3071 Honey on Oak

3072 Amber on Oak

3073 Terra on Oak

Note: The above colour shades are a true likeness of the original, however some variation may occur due to catalogue printing processes. It is advisable to test colours on a small sample, as some colours may appear different on other wood species.

POLYX®-OIL TINTS

All the renowned properties of Polyx®-Oil – tinted for individual creativity

- > Transparent, satin-matt, for interior use
- > Especially recommended for wood and cork flooring as well as furniture and edge glued panels
- > Polyx®-Oil Tints are water-repellent, dirt-resistant and durable. The surface is pleasant to the touch, has an even and harmonic optic and is based on natural, renewable raw vegetable materials
- > Number of coats: For a transparent optic, apply thinly along the wood grain and brush out thoroughly. A maximum of two coats can be applied to raw surfaces, only 1 coat for wooden flooring. After drying apply a final coat of one of the Osmo clear Polyx®-Oils.
- > Polyx®-Oil Tints is available in 0.375, 0.75, 2.50, 10 and 25 litre drums
- > 1 liter covers approx. 24 m² with 1 coat

3091 Silver on smoked Oak

3092 Gold on smoked Oak

3074 Graphite on Oak

3075 Black on Oak
