

GENERAL: Organoil Woodsheen is a super fine buffing oil that will restore and rejuvenate tired, dull and worn existing oil finishes. Its light plant oils and dissolved bees was formulation will put a gleam back into Danish and Scandinavian oil finishes.

When applied over an existing oiled finish, Woodsheen will raise the patina without a heavy oil build up.

Woodsheen can also be used on high oil content timbers, by following the "General Burnishing Instructions" data sheet in this catalogue. The result will be good grain enhancement with minimal colour deepening / yellowing.
